Touch Screen Hygiene Sticks

Hygiene Kit for Operating Terminals

Surfaces of operating terminals are inviting places for viruses and bacteria. With Hygiene Sticks your customers can now operate cash dispensers or card readers without touching them with their fingers. After use, the sticks can be disinfected and are then ready for use again. For this purpose there is a cup with disinfectant or cleaning solution and one that serves as a holder for the sticks. To maintain optimum hygiene, equip your employees with disposable gloves.

Description:

- Highly break-proof antibacterial plastic cups, tested in Germany.
- 10 control pens with non-slip heads for safe operation of card terminals or similar.
- Cup holder with adhesive base for secure positioning.
- 2 coloured cups.

Areas of use:

- Card readers
- ATM's
- Checkout areas
- Counter areas

Hygiene Kit:	Description:	Ref. Code:
	Touch screen hygiene sticks 3 sets per pack. 180mm wide x 132mm ht. x 100mm deep.	POS-SSTSHS-0

Cap Visor

Face Protection

Protect yourself and others. The Cap Visor is a universal face protection, which can be easily attached without additional fastening to all standard baseball caps. The flexible and fully transparent plastic visor is extremely light and does not have any adverse effect.

Description:

- High wearing comfort
- Very lightweight 0.5mm PETG acrylic
- Shatterproof
- Dishwasher safe

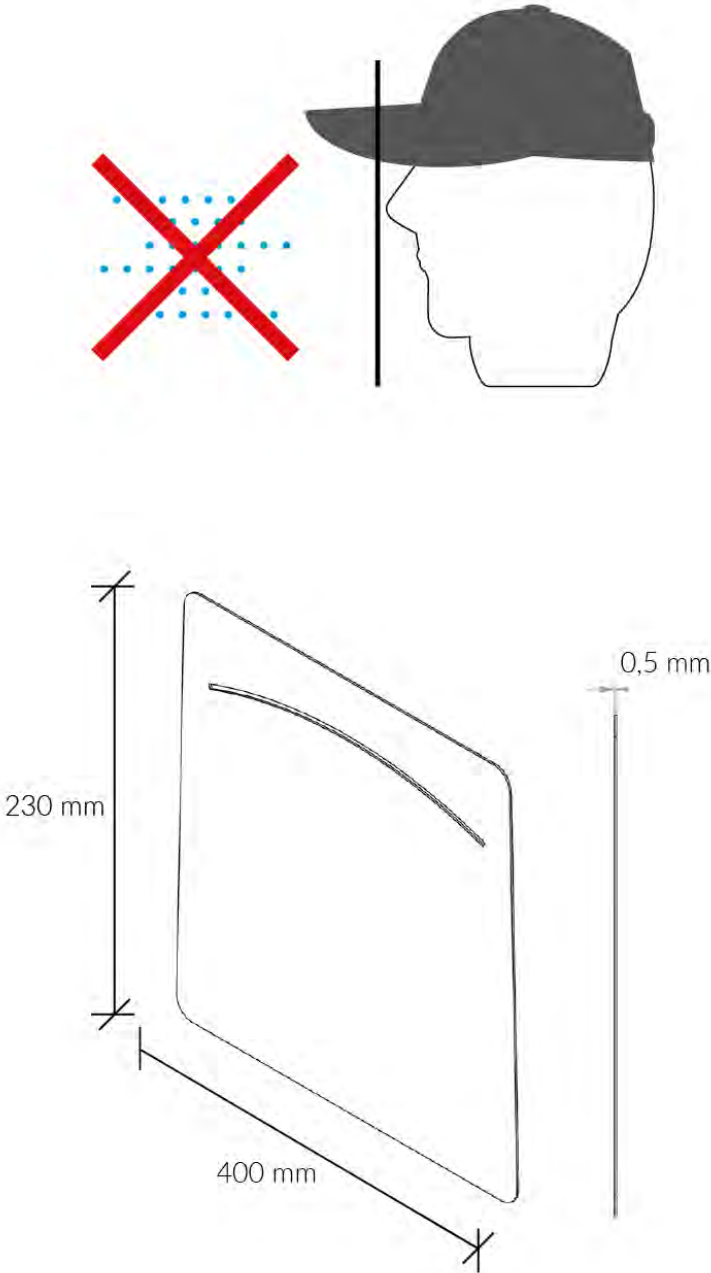

Areas of application:

- Retail stores
- Installation areas
- Reception activities
