# Design and Fit-out Services

## DESIGN SOLUTIONS

At Johnston's we believe in the idea that form follows function and we believe in a system that will allow you to realise your full business potential. This key principle is integral to what we do and who we are and although we are staunch proponents of visually arresting commercial environments we always consider the workings of your building to be of paramount importance. We create interior environments geared towards maximising sales. We ensure that our design is tailored to each specific environment to gain the optimal output in the space.

## THE SCIENCE

Working closely with our clients we generate detailed plans taking into consideration such elements as product placement plus customer & staff flow. We work to ensure the operation and functionality of the environment is designed to realise its full potential.

## CONCEPT GENERATION

Once the layout planning is complete we move into concept generation where we will start the process of creating a new bespoke design.

## IN-HOUSE MANUFACTURE

We have our own in-house manufacturing facility located in West Dublin allowing us to service large contracts which include nationwide and international roll-outs as well as one off bespoke contracts.

Manufacturing services include;

- VALUE ENGINEERING
- PROTOTYPING
- TIMBER & METAL
- GLASS & ACRYLIC
- SPRAY PAINTING
- POWDER COATING

## PRODUCTION FACILITIES

## WAREHOUSE STORAGE

## TURN-KEY FIT-OUT

Our clients expect great service and fitting of the very highest standard. We are proud of what we do and are committed to offering exemplary fit-out services. We are involved with the project from the initial site surveys right through to installation.

## IN-HOUSE PRINTING

We are equipped with both large format ink jet and UV printers, allowing us to produce onto many different media types, ranging from short runs of POS and posters, roll-up and pop-up displays, wall and window graphics, large format banners, and a wide variety of different options for both indoor and outdoor use, as well as the ability to print directly onto any substrate up to 2.5 meters wide.

## CONCEPT DEVELOPMENT

Using top of the line technology and software our creative design team create detailed photo-realistic 3D visuals and animations that clearly present the new concept.

## PROJECT MANAGEMENT

At Johnston's our Contracts and Project Management team work closely with our in-house CAD & Manufacturing departments to ensure all areas of the project are exposed prior to going live. We build firm relationships with our clients to understand what it is that matters to them. With that our Clients are confident their Project will be delivered Safely within time, budget and most importantly with the Quality Expected.
